

Technical data sheet

Configurable Retrofit rotary actuator for rotary valves and butterfly valves Torque motor 40 Nm

- Nominal voltage AC/DC 24 V
- Control modulating 2...10 V variable • Position feedback 2...10 V variable
- Running time motor 35 s

Technical data

Electrical data	Nominal voltage	AC/DC 24 V
	Nominal voltage frequency	50/60 Hz
	Nominal voltage range	AC 19.228.8 V / DC 21.628.8 V
	Power consumption in operation	8 W
	Power consumption in rest position	2.5 W
	Power consumption for wire sizing	11 VA
	Connection supply / control	Terminals 4 mm ²
	Parallel operation	Yes (note the performance data)
Functional data	Torque motor	40 Nm
	Operating range Y	210 V
	Input Impedance	100 kΩ
	Options positioning signal	Open/close
		3-point (AC only)
		Modulating (DC 032 V)
	Operating range Y variable	Start point 0.530 V
		End point 2.532 V
	Position feedback U	210 V
	Position feedback U note	Max. 0.5 mA
	Position feedback U variable	Start point 0.58 V
		End point 2.510 V
	Position accuracy	±5%
	Manual override	with push-button, can be locked
	Running time motor	35 s / 90°
	Running time motor variable	35150 s
	Adaptation setting range	manual (automatic on first power-up)
	Adaptation setting range variable	No action
		Adaptation when switched on
		Adaptation after pushing the gear
	Overwide exetual	disengagement button
	Override control	MAX (maximum position) = 100%
		MIN (minimum position) = 0% ZS (intermediate position, AC only) = 50%
	Override control variable	MAX = (MIN + 33%)100%
		MIN = 0%(MAX - 33%)
		ZS = MINMAX
	Sound power level, motor	60 dB(A)
	Position indication	Mechanically (integrated)
Safety	Protection class IEC/EN	III Safety Extra-Low Voltage (SELV)
	Protection class UL	UL Class 2 Supply
	Degree of protection IEC/EN	IP54
	Degree of protection NEMA/UL	NEMA 2
	Enclosure	UL Enclosure Type 2
	EMC	CE according to 2014/30/EU
	Certification IEC/EN	IEC/EN 60730-1 and IEC/EN 60730-2-14
	Certification UL	cULus according to UL60730-1A, UL60730-2-
		14 and CAN/CSA E60730-1:02
	Certification UL note	The UL marking on the actuator depends on the
		production site, the device is UL-compliant in
		any case

GRC24A-MF-TP-R	Rotary actuator, parametrisable, 40 Nm	modulating, AC/DC 24 V, BELIMO	
Technical data			
Safety Mechanical data	Mode of operation Rated impulse voltage supply / control Control pollution degree Ambient temperature Storage temperature Ambient humidity Servicing Connection flange	Type 1 0.8 kV 3 050°C -4080°C Max. 95% r.H., non-condensing maintenance-free F05/F07	
Weight	Weight	2.1 kg	
Safety notes			
	 This device has been designed for use in stationary heating, ventilation and airconditioning systems and must not be used outside the specified field of application, especially in aircraft or in any other airborne means of transport. Outdoor application: only possible in case that no (sea) water, snow, ice, insolation or aggressive gases interfere directly with the actuator and that is ensured that the ambient conditions remain at any time within the thresholds according to the data sheet. Only authorised specialists may carry out installation. All applicable legal or institutional installation regulations must be complied during installation. The switch for changing the direction of rotation may only be operated by authorised specialists. The direction of rotation must not in particular be reversed in a frost protection circuit. The surface temperature between actuator and fitting may not exceed 50°C. The device may only be opened at the manufacturer's site. It does not contain any parts that can be replaced or repaired by the user. Cables must not be removed from the device. The device contains electrical and electronic components and must not be disposed of as household refuse. All locally valid regulations and requirements must be observed. 		
Product features			
Mode of operation	The actuator is connected with a standard modulating signal of 010 V and drives to the position defined by the positioning signal. Measuring voltage U serves for the electrical display of the valve position 0.5100% and as slave control signal for other actuators.		
Parametrisable actuators	The factory settings cover the most co modified with the Belimo Service Tools	mmon applications. Single parameters can be s MFT-P or ZTH EU.	
Application			
Tappet shaft	The form fit adapter is not included in the scope of delivery (see «Accessories»).		
	Type s Image: Constraint of the second sec	n] [mm] [mm]	

Simple direct mounting Simple direct mounting on the rotary valve or butterfly valve with mounting flange. The mounting orientation in relation to the fitting can be selected in 90° steps.

Product features		
Manual override	Manual override with push-button possible (the gear is disengaged for as long as the button is pressed or remains locked).	
Adjustable angle of rotation	Adjustable angle of rotation with mechanical end stops.	
High functional reliability	The actuator is overload protected, requires no limit switches and automatically stops when the end stop is reached.	
Home position	The first time the supply voltage is switched on, i.e. at the time of commissioning, the actuator carries out an adaption, which is when the operating range and position feedback adjust themselves to the mechanical setting range. The actuator then moves into the position defined by the positioning signal. Factory setting: Y2 (counter-clockwise rotation).	
Adaption and synchronisation	An adaption can be triggered manually by pressing the "Adaption" button or with the PC-Tool. Both mechanical end stops are detected during the adaption (entire setting range). Automatic synchronisation after pressing the gearbox disengagement button is configured. The synchronisation is in the home position (0%). The actuator then moves into the position defined by the positioning signal. A range of settings can be adapted using the PC-Tool (see MFT-P documentation)	

Accessories

	Description	Туре
Electrical accessories	Auxiliary switch 1 x SPDT add-on	S1A
	Auxiliary switch 2 x SPDT add-on	S2A
	Feedback potentiometer 140 Ω add-on	P140A

Electrical installation		
Notes	 Connection via safety isolating transformer. Parallel connection of other actuators possible. Observe the performance data. Direction of rotation switch is covered. Factory setting: Direction of rotation Y2. 	

Electrical installation

Wiring diagrams

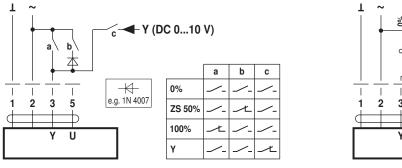

AC/DC 24 V, modulating

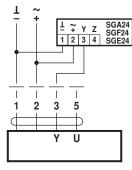

Functions

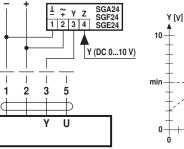

Functions with basic values (conventional mode)

Override control with AC 24 V with relay contacts

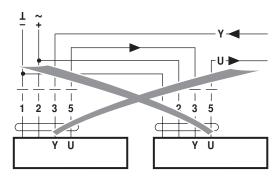

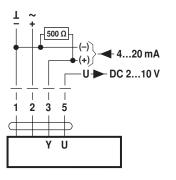

Control remotely 0...100% with Minimum limit with positioner SG..

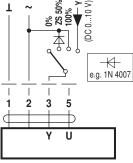

Follow-up control (position-dependent)

Caution: The operating range must be set to DC 2...10 V. The 500 Ω resistor converts the 4...20 mA current signal to a voltage signal DC 2...10 V

Override control with AC 24 V with rotary switch

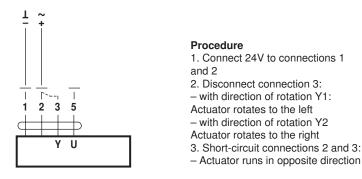

Ţ /

Control with 4...20 mA via external resistor

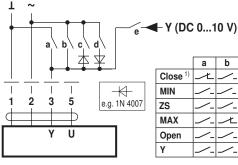

Functions

Functional check

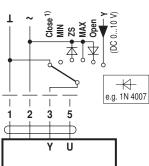

Functions for devices with specific parameters (Parametrisation necessary)

Override control and limiting with AC 24 V with relay contacts

d а b С е ィ 七 七

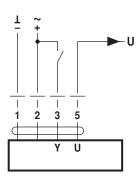

Control 3-point with AC 24 V

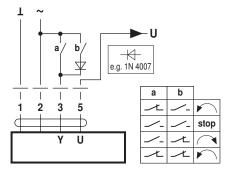

Override control and limiting with AC 24 V with rotary switch

1) **Caution:** This function is only guaranteed if the start point of the operating range is defined as min. 0.5 V.

Control open/close

GRC24A-MF-TP-R

Service

Service Tools connection

The actuator can be parametrised by ZTH EU via the service socket. For an extended parametrisation the PC tool can be connected.

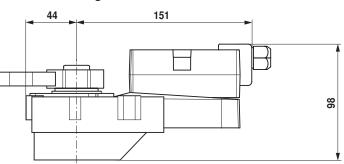

Connection ZTH EU / PC-Tool
